THEMED MEAL AND FILM REVIEW

Saturday December 12th 6.30p.m

The Choral follows a Yorkshire choir in World War I whose new leader, Dr. Henry Guthrie, turns to local boys and townsfolk to keep music alive amid the uncertainty of looming conscription. The film offers rich period detail, heartfelt performances—especially Ralph Fiennes'—and a moving portrayal of art's power to comfort in hardship. Though some critics found it slow and overstuffed, its music, atmosphere, and emotional sincerity make it worth seeking out for fans of thoughtful, character-driven drama
